### CAREER OBJECTIVE

To work on challenging web and software development projects that enhance user experience, drive technological innovation, and deliver efficient, scalable, and impactful solutions. To design and develop efficient, interactive, and impactful applications that improve user experience and meet real-world needs.

### WORK EXPERIENCE

- Solar Tracker System – Developed a solar tracking system to maximize solar panel efficiency by automatically adjusting its position based on sunlight
- E-commerce Flower Selling Website – Created a full-stack website for online flower sales, including product display, cart management, and order handling
- Wonderlust Villa Booking Website – Built a villa booking platform allowing users to search, view, and reserve villas online with an easy-to-use interface.
